

ENGLISH LANGUAGE COMPETENCE SURVEY

The first survey has been submitted to 25 students. 18 of them have been studying English for 4-7 years, whereas 7 students have been learning it for more than 7 years. When asked about the language certificates, the vast majority of the respondents claim they do not have any English certificates.

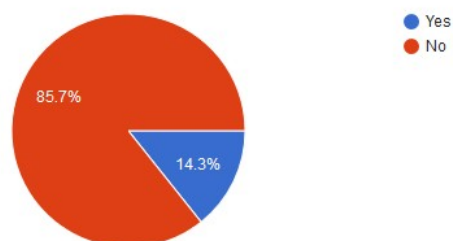

Do you have any English certificate?

To sum up the survey results, it can be concluded that although the knowledge of English is a really crucial skill for the pupils and they are definitely aware of this importance, it is not common among the students to take language certificates. Many students at our school take part in English competitions, one of which is an international contest “The Big Challenge”, organized at our school in spring every year. What is more, at the age of 15 it is obligatory

for all students to take 3 national exams, including the English language exam. This may be the reason why they feel that taking extra certificates is not really necessary. However, through the project participation we would like to encourage and motivate the pupils to get a language certificate so that they can prove their knowledge and skills at English. We also hope that the project will contribute to raising our students' language skills and they will get more confidence in foreign language communication.
