

MUSIC COMPETENCE SECOND SURVEY

The second survey was carried out by 24 students, all of whom are involved in the project. According to the answers, 33% of the respondents claim to be able to play a musical instrument (including piano, guitar, violin, ukulele or recorder). According to the remaining respondents, they are singers and take part in the choir.

Do you play any instrument?

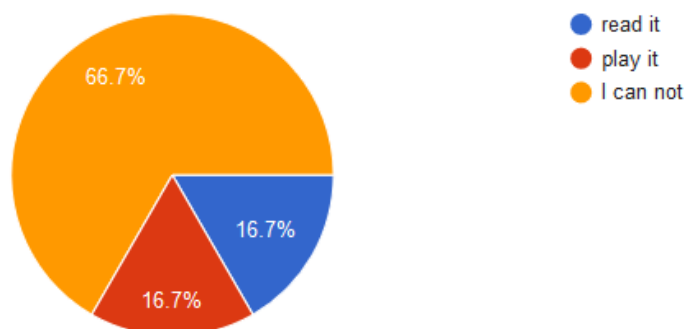

24 responses

When it comes to their ability to read musical notes, there has been a slight increase in the number of students who have acquired this skill.

Can you:

24 responses

To sum up the survey results, students love different kinds of music, which plays a crucial role in their lives. Thanks to the project, students definitely have become better at singing in a

choir and a few of the respondents have decided to learn to play a musical instrument and started to read the musical notes. We would still like to encourage more pupils to acquire these skills in the future.
